## SUMMARY

Aspiring Java Backend Developer with hands-on experience in Spring Boot, Spring Security (JWT, OAuth2), REST APIs, and MySQL. Proficient in building secure, scalable applications and implementing authentication and authorization. Strong problem-solving skills with over 110+ problems solved on LeetCode.

## TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, PHP

Backend Frameworks: Spring Boot, Spring MVC, Spring AOP

Security: Spring Security, JWT Authentication, OAuth2

Web Technologies: HTML, CSS, JavaScript

Databases: MySQL

Tools & Platforms: Maven, Postman

Core Concepts: OOP, REST API Development, Data Structures & Algorithms, SQL Queries

## PROJECTS

### Library Management System (Java, Spring Boot, MySQL)

- Developed a full-fledged digital library management system using Spring Boot and MySQL.
- Implemented user signup/login with JWT-based authentication and Spring Security.
- Enabled users to browse books, borrow eBooks, and view borrowed files.
- Built an admin panel for managing books, users, and transactions (CRUD operations).
- Designed and tested REST APIs using Postman for seamless integration.

## CERTIFICATIONS

- Java Backend Development – GeeksforGeeks (2025)
- Django Web Development – Tecchad Computer Institute (2023)

## EDUCATION

Bachelor of Computer Applications (BCA) – Innocent Hearts Group of Institutions, Jalandhar

CGPA: 9.0 (2023 – Present)

Senior Secondary (12th) – Govt. Sen. Sec. Model School

Percentage: 90% (2023)

## ACHIEVEMENTS

- Solved 110+ problems on LeetCode improving problem-solving ability.
- Got First Prize in Inter College Coding Competition.
